

IN-4 (ИН-4) Nixie Röhre/Nixie Tube

Variant: coarse grid

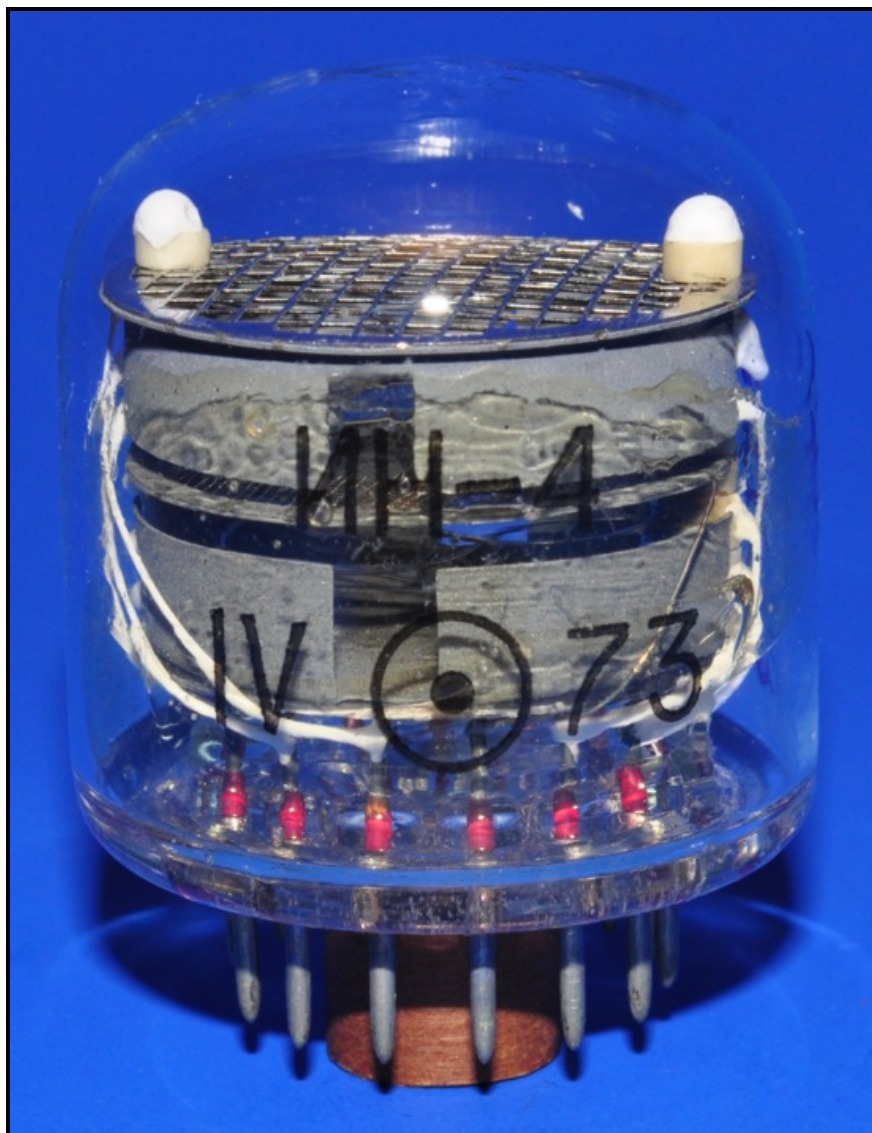

Made by Газотрон, Ровно, Украина (Gazotron, Rovno, Ukraine)

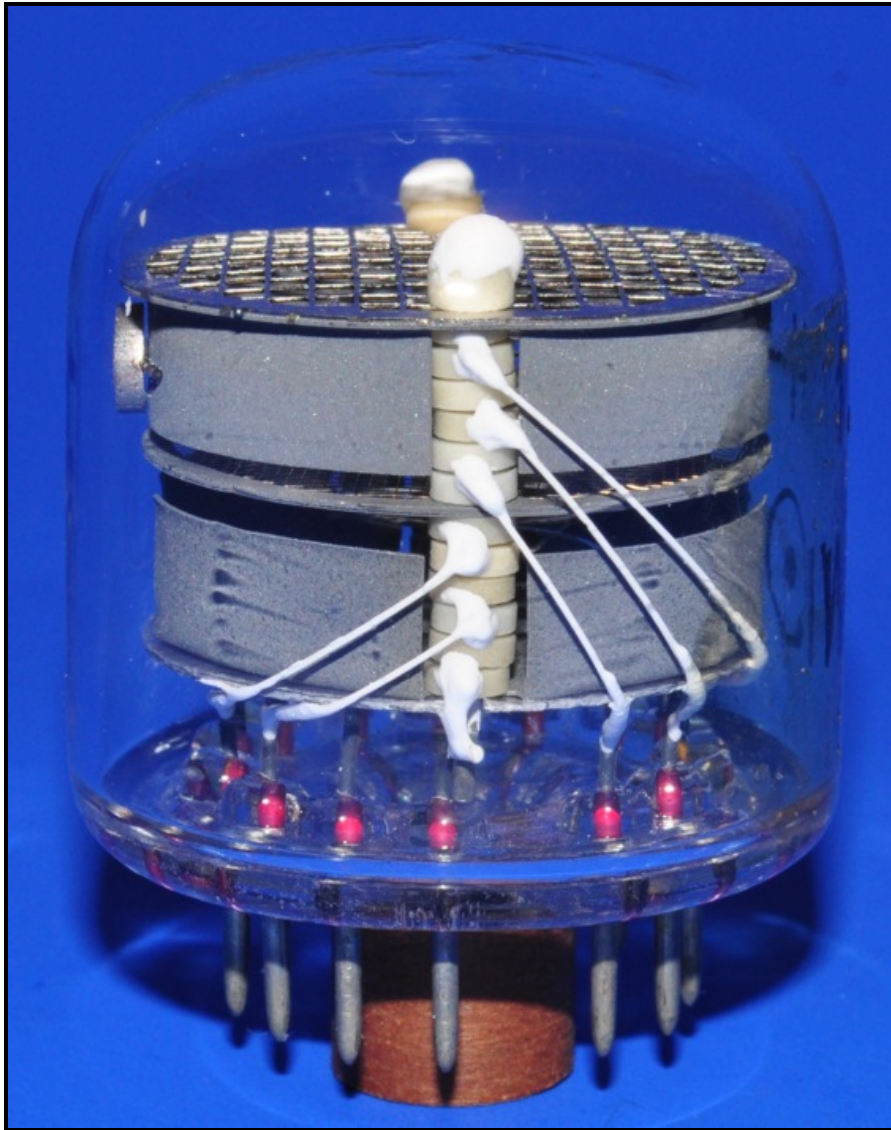

There were different variants of this tube.

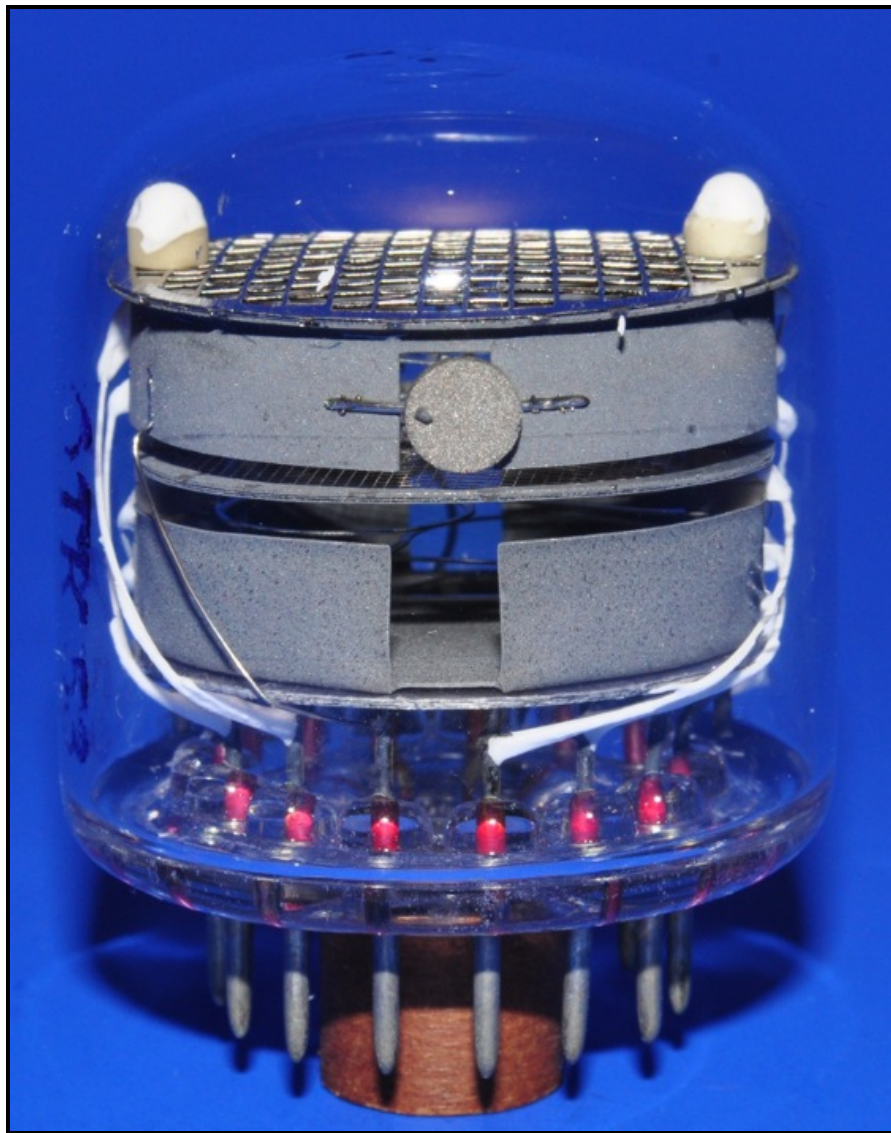

This is variant with coarse grid

This tube can be used as a biquinary tube (cathodes connected externally) or a normal Nixie tube.

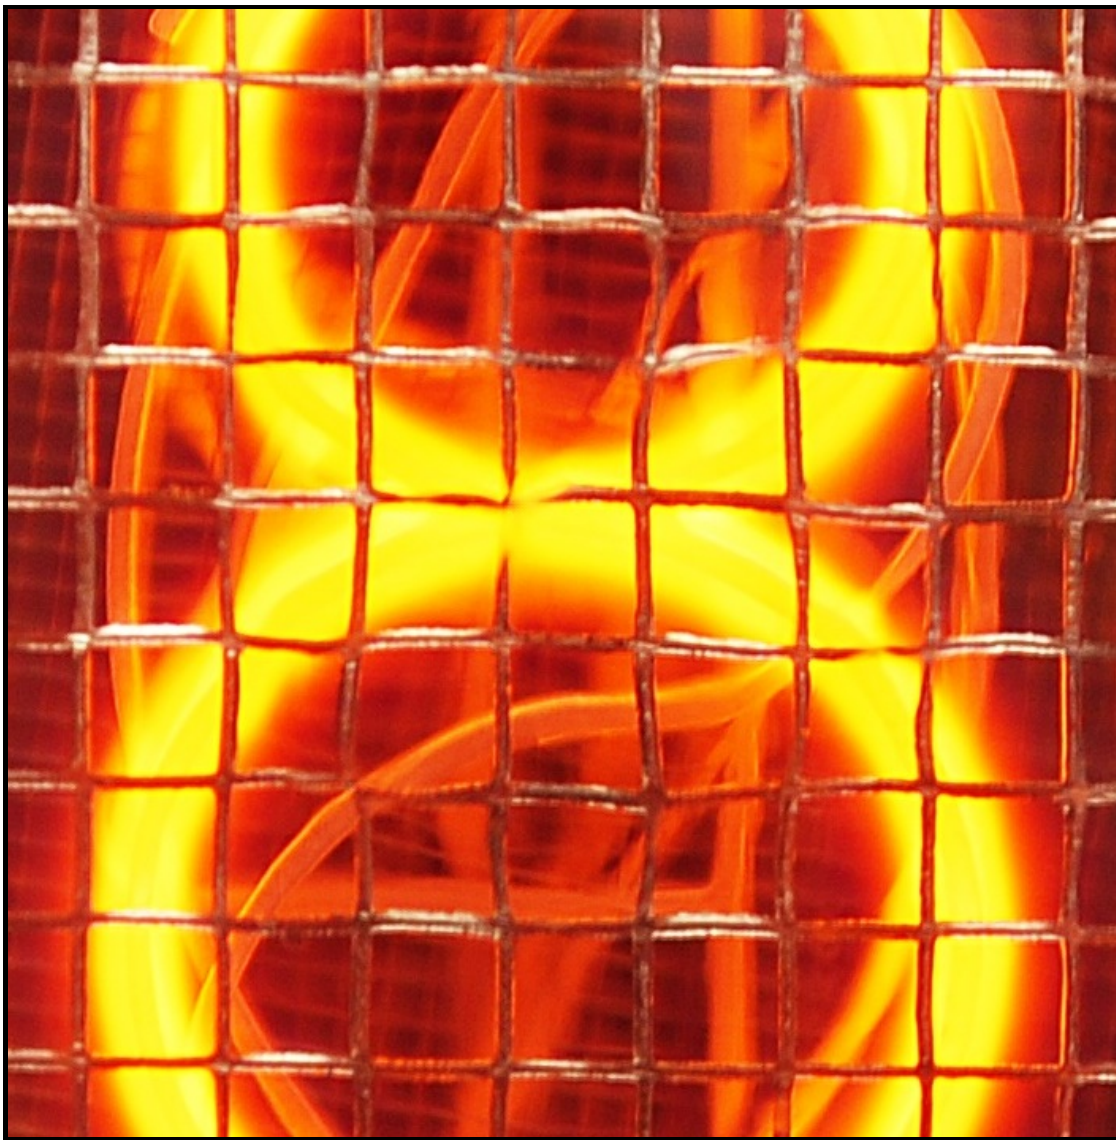

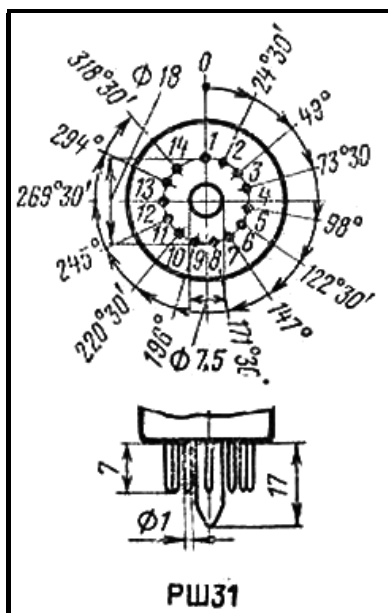

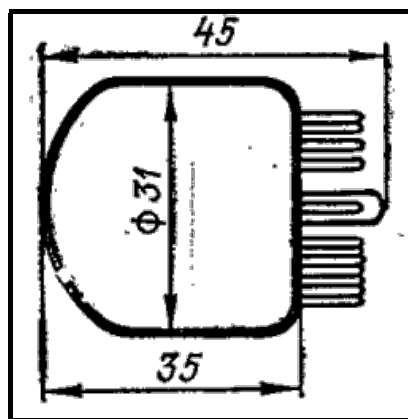

Röhrendaten/Tube Data			
German	English		
Typ	Type		IN-4 (ИИ-4)
Hersteller	Brand		Газотрон (Gazotron Tube Factory, Rovno, Ukraine)
Vergleichstypen	Substitutes		-
Symbole	Displayed symbols		0-9
Symbolhöhe	Symbol height		17mm (0.670")
Pindurchmesser	Pin diameter		1 mm (0.04")
Röhrendurchmesser nominal	Tube diameter nominal		30 mm (1.18")
Röhrendurchmesser maximal	Tube diameter maximal		32 mm (1.26")
Höhe Röhrenboden bis Kuppe	Tube height bottom to top		31 mm (1.22")
Höhe Röhre gesamt	Tube height total		41 mm (1.61")
Zündspannung maximal	Ignition voltage	V	170
Anodenspannung nominal	Anode voltage nominal	V	170
Anodenspannung minimal	Anode voltage minimal	V	170
Brennspannung	Voltage drop	V	150
Kathodenstrom nominal	Cathode current nominal	mA	2.5
Kathodenstrom maximal	Cathode current maximal	mA	3
Leuchtdichte minimal	Luminance	cd/m²	100
Sockel	Base		RSH31 (ПИИ31), Pin 7 unten/ RSH31 (ПИИ31), pin 7 at bottom
Fassungen	Sockets		PL31(П/І31), PL31p(П/І31п), PL31-2V(П/І31-2В)

Outline/Pinout:

Ansicht von unten/Bottom view

Pin	Connection if connected biquinary	Connection if connected not biquinary
1	Cathode digit 4	Cathode digit 4
2	Cathode digit 6	Cathode digit 6
3	Cathode digit 8	Cathode digit 8
4	Screen	Anode
5	Cathode digit 9	Cathode digit 9
6	Cathode digit 7	Cathode digit 7
7	not connected	not connected
8	Cathode digit 0	Cathode digit 0
9	Cathode digit 2	Cathode digit 2
10	Anode for even digits	not connected
11	Cathode digit 3	Cathode digit 3
12	Cathode digit 5	Cathode digit 5
13	Anode for odd digits	not connected
14	Cathode digit 1	Cathode digit 1
